

Program Overview

Simplified, secure and cost-effective domain,
DNS and SSL management

Premium features included with every domain name

Every domain comes bundled with the services and features you need for efficient and secure domain management, including:

WHOIS Privacy - Mask contact info in the public WHOIS to prevent spam and domain threats

Premium DNS Hosting - 15+ records, including ALIAS; Anycast; DNSSEC; zone file templates and more

Parent/Child Accounts - Allow teams to access and manage domains with master oversight

Secure Multi-User Access - Assign roles with limited scope and unique credentials for increased security

IP Account Lock - Restrict account access to a specific IP range, in addition to two-factor authentication

Zero-downtime domain transfer process

We expertly manage the transfer of your domain names to Webnames.ca with zero-downtime, ensuring that your websites and email remain fully operational throughout.
